- When logged in you always have top and side bar availabilities

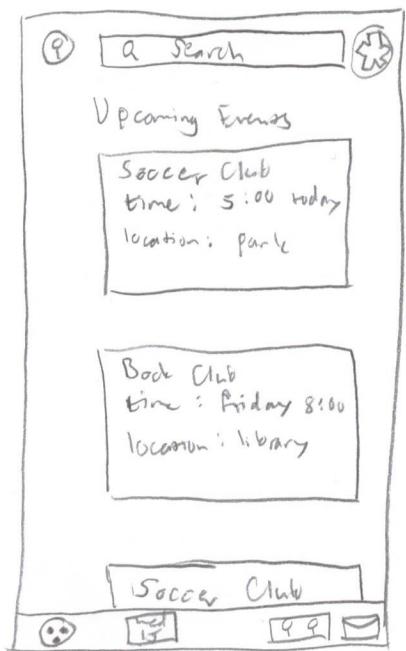

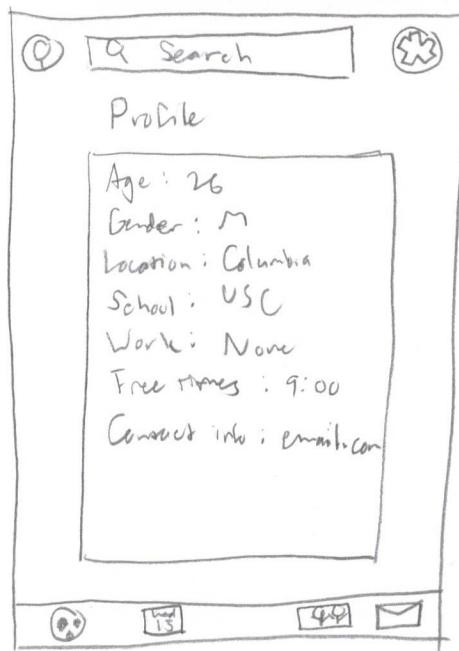

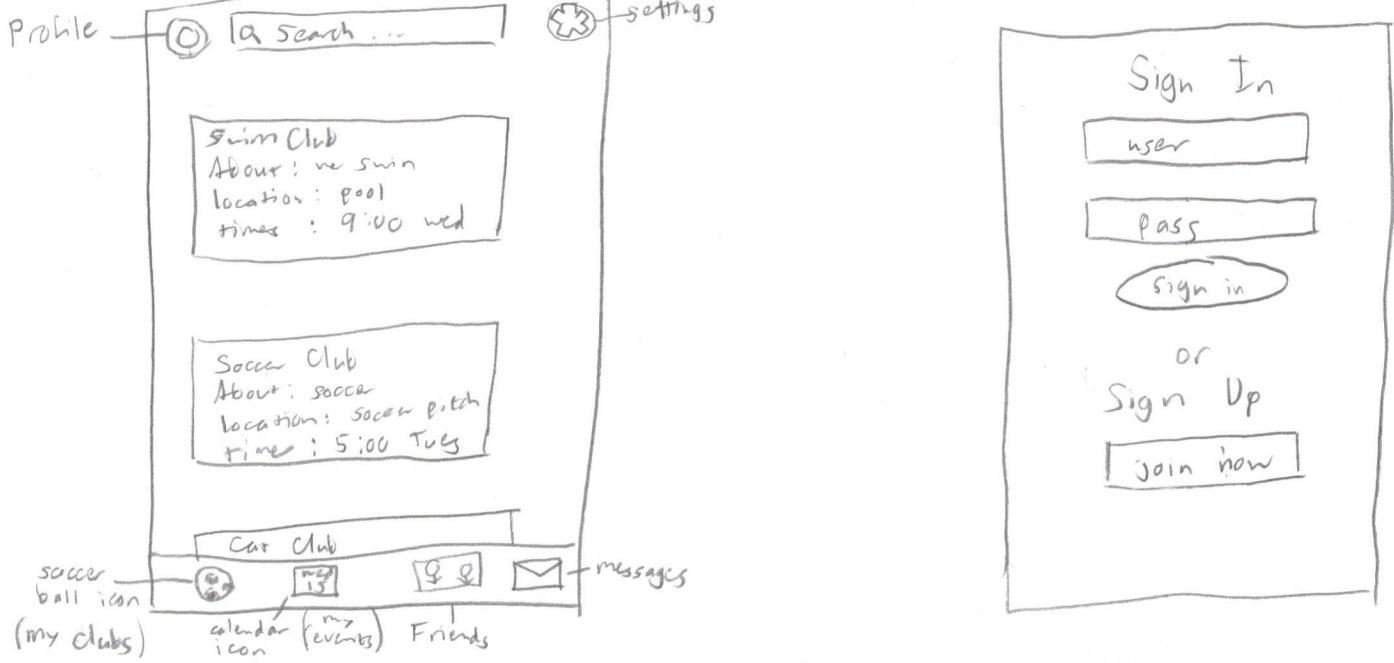

- Same basic design for each profile page
- Log in / sign up page focuses on signing up

- Can add more features to each page

- when signed in there always is a search, menu, and profile option
- Header is always on top with info below it in a condensed form
- Menu opens over page as shown in bottom right picture

- Sign up page only has sign up or sign in since it is an app

- All menu items are always shown
- Default page has suggestions and reminders on it
- No pop out menus

- Sign in page focuses on signing in
- Join on separate page on app
